**Human health hazards** : Harmful if swallowed.  
 See section 11 for more detailed information on health effects and symptoms.

### 4. First-aid measures

**First-aid measures**

- Inhalation** : If inhaled, remove to fresh air. If not breathing, give artificial respiration. Get medical attention if symptoms appear.  
**Ingestion** : Do not induce vomiting. Never give anything by mouth to an unconscious person. Get medical attention if symptoms appear.  
**Skin contact** : Wash with soap and water. Get medical attention if irritation occurs.  
**Eye contact** : Check for and remove any contact lenses. In case of contact with eyes, rinse immediately with plenty of water. Get medical attention if irritation occurs.

See section 11 for more detailed information on health effects and symptoms.

### 5. Fire-fighting measures

- Extinguishing media** : Use an extinguishing agent suitable for the surrounding fire.  
**Special exposure hazards** : No specific hazard.  
**Special protective equipment for fire-fighters** : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

### 6. Accidental release measures

- Personal precautions** : Immediately contact emergency personnel. Keep unnecessary personnel away. Use suitable protective equipment.  
**Environmental precautions and clean-up methods** : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.  
 If emergency personnel are unavailable, contain spilt material. For small spills, add absorbent (soil may be used in the absence of other suitable materials), scoop up material and place in a sealable, liquid-proof container for disposal. For large spills, dyke spilt material or otherwise contain material to ensure runoff does not reach a waterway. Place spilt material in an appropriate container for disposal.

**Note:** see section 8 for personal protective equipment and section 13 for waste disposal.

### 7. Handling and storage

- Handling** : Do not ingest. Wash thoroughly after handling.  
**Storage** : Keep container closed. Keep container in a cool, ventilated area. Storage temperature: 2-8°C (36-46°F). Do not freeze.  
**Packaging materials**  
**Recommended** : Use original container.  
**Specific uses** : Not available.
